# Subject index

**α2 Adrenoceptor**
receptors, prejunctional, postjunctional, rabbit, cat 963
**ACAID**
antigens, HLA, HLA class II antigens, macrophage- associated membrane molecules (CD14, CD68) leucocyte-common- antigen (CD45) immunocytochemistry, human outflow tissue 1173
**Adenosine receptors**
intraocular pressure, (R)-phenylisopropyladenosine (R- PIA), adenosine, rabbit 453
**Adhesion molecules**
retina, choroid, immunoperoxidase, human s153
uveitis, ICAM-1, HLA-B 27, sarcoidosis s161
**Aging**
lens, glutathione, glutathione synthetase, γ- glutamylcysteine synthetase, primate: baboon, pigtail monkey, orangutan, prosimian: lemur, galago 601
**AIDS**
cornea, HIV-1, HHV-6, asymptomatic HIV-1 carriers 315
**Aldehyde dehydrogenase**
cornea, molecular weight, BCP 54, SDS-PAGE, bovine, human 377
**Antibiotics**
keratitis, methicillin-resistant Staphylococcus aureus, ciprofloxacin, vancomycin, cornea, rabbits 1111
**Antifungal agents**
keratitis, cornea, Aspergillus fumigatus, fluconazole, itraconazole, animal model 35
**Antigens**
ACAID, HLA, HLA class II antigens, macrophage-associated membrane molecules (CD14, CD68) leucocyte-common-antigen (CD45) immunocytochemistry, human outflow tissue 1173
**Aqueous humor**
cyclic AMP, circadian rhythm, IBMX, rabbit 935
endothelin, ciliary body, cell culture, human nonpigmented ciliary epithelium, human ciliary muscle, bovine corneal endothelium 1041
growth factors, neuropeptides, α-MSH, cytokines 1199
protein, cystatin, chromatography, electrophoresis, monkey 1239
**Ascorbic acid**
retina, retinal pigment epithelium, light changes, rat 231
**Autoimmune disease**
experimental autoimmune uveitis, adjuvant, immunization, uveoretinitis, rat 371
experimental autoimmune uveitis, antigen presentation, protease inhibitors, immunodominance, retinal pigment epithelium, prostaglandins, review s49
molecular aspects, review s17
ocular cicatricial pemphigoid (OCP), cornea, DQB1*0301, DQw7, sequence analysis 1233
uveitis, T-cell, retinal antigens, IL-2 receptor, review s11

**Bacterial adherence**
Pseudomonas, cornea, infection, flagella, immunization 727
**Bacterial infection**
pneumolysin, cornea, pneumococcus, infection, virulence 1221
**Basement membrane**
laminin, retina, receptor, mouse 923
**Behcet's disease**
FK506, experimental autoimmune uveitis, uveitis, clinical study, human, rat s87
**Bicarbonate**
ciliary epithelium, sodium-potassium ATPase, ion channels, membrane transport and permeability, intracellular potential, anion channels, rabbit 609
**Blood flow**
ciliary process, microcirculation, endoscopy, rabbit 543
ciliary processes, intraocular pressure, epinephrine, microendoscopy, microvessels, rabbit 161
diabetes, retina, retinal circulation, video fluorescein angiography, rat animal model 287
pupil, endothelin, endothelin-1, retinal blood flow, prostaglandins, cat 325
retinal blood flow, retina, retinal vessel diameter, radioactively labelled microspheres, laser Doppler technique, pig 633
**Blood-aqueous barrier**
cyclic nucleotides, intraocular pressure, inflammation, 8-bromo-cAMP, 8-bromo-cGMP, prostaglandins, rabbit 5
**Brain**
gamma-glutamyl transpeptidase, retina, microvessel, alkaline, phosphatase 203

**Calcitonin gene-related peptide**
response, laser, irritation, methysergide, neodymium YAG laser, lens capsulotomy, rabbit 307
**Calcium**
lens, calpain, cytoskeleton, beaded filament protein, proteolysis 103
retinal pigment epithelium, lysosomal enzymes, zymosan, phagocytosis, calcium fluxes, frog 195
ultraviolet irradiation, lens, oxidative damage, epithelium, enzymes, UV(B) 679
**Calpain**
lens, calcium, cytoskeleton, beaded filament protein, proteolysis 103
**Carbonic anhydrase**
lens, bovine 475
**Cataract**
lens, classification, retroillumination, photographic slit lamp, reproducibility, Kappa statistic 971
lens, lens crystallins, alpha crystallins, lens membrane, protein association 801
lens, membrane transport and permeability, calcium, Na/Ca-exchange, Na,K-ATPase, selenium, rat 625
lens, selenium, selenite cataract, scanning electron microscopy, rat 1147
2-mercaptopriopionylglycine, X-ray cataract, malondialdehyde, Na+/K+, non-protein-SH groups, rat 1099
selenium, review, selenite cataract, cultured lenses, experimental animals, human 357
**Chlamydia**
trachoma, Chlamydia trachomatis, inapparant chlamydial infection, molecular hybridization, rRNA probe, cynomolgus monkey 279
**Chlorpromazine**
inflamation, uveitis, endotoxin-induced uveitis, lipopolysaccharide, tumor necrosis factor, rat 843
**Ciliary body**
endothelin, aqueous humour, cell culture, human nonpigmented ciliary epithelium, human ciliary muscle, bovine corneal endothelium 1041
extracellular matrix, retinal S-antigen, experimental autoimmune uveitis, immunocytochemistry, rat 1087
receptors, calcitonian gene-related peptide (CGRP), binding, islet amyloid polypeptide, bovine, porcine, rabbit 1079
**Ciliary epithelium**
bicarbonate, sodium-potassium ATPase, ion channels, membrane transport and permeability, intracellular potential, anion channels, rabbit 609
cyclic nucleotides, ion channels, cAMP, K+-channels, isoprenaline, adrenergic stimulation, rabbit/bovine 1019
gap junctions, pigmented ciliary epithelium, non pigmented ciliary epithelium, ODM-2, human NPE cell line 113
**Ciliary muscle**
fibronectin, collagen, cell culture, type IV collagen, type VI collagen, human 333
**Ciliary processes**
blood flow, microcirculation, endoscopy, rabbit 543
intraocular pressure, blood flow, epinephrine, microendoscopy, microvessels, rabbit 161
**Circadian rhythm**
cyclic AMP, aqueous humor, IBMX, rabbit 935
**Collagen**
ciliary muscle, fibronectin, cell culture, type IV collagen, type VI collagen, human 333
**Collagenase**
metalloproteinase, keratoconus, cornea, extracellular matrix, human 849
**Confocal microscope**

experimental autoimmune uveitis, interphotoreceptor binding protein, dual immunofluorescence, macrophage, rat s129

**Contact lenses**
tear fluid, immunoglobulins, secretory, IgA, HPLC 123
tear fluid, plasmin, inflammation, hypoxia, extended wear, human 243

**Cornea**
AIDS, HIV-1, HHV-6, asymptomatic HIV-1 carriers 315
aldehyde dehydrogenase, molecular weight, BCP 54, SDS- PAGE, bovine, human 377
cyclosporine, drug delivery, vehicle, protein, corneal penetration, permeability, rabbit 641
drug delivery, corneal penetration, drug combination, flurbiprofen, phenylephrine, ion pairing 85
keratin, K12 keratin, alkali injury, epithelial stem cells, rabbit 875
keratitis, antifungal agents, Aspergillus fumigatus, fluconazole, itraconazole, animal model 35
keratitis, pseudomonas aeruginosa, ciprofloxacin, prednisolone, rabbits 259
keratoconus, lectins, lectin binding sites, scar tissue, human 397
keratocytes, ion channels, K+ channel, Na+ channel, patch clamp 127
metalloproteinase, collagenase, keratoconus, extracellular matrix, human 849
ocular cicatricial pemphigoid (OCP), autoimmune disease, DQB1*0301, DQw7, sequence analysis 1233
pneumolysin, bacterial infection, pneumococcus, infection, virulence 1221
Pseudomonas, infection, bacterial adherence, flagella, immunization 727

**Corneal endothelium**
5-Fluorouracil, Mitomycin C, cytotoxicity, Mosmann's MTT- test, bovine 565
growth factors, wound healing, basic fibroblast growth factor, rabbit 1161
membrane transport and permeability, cell culture, filter inserts, barrier function 61
wound healing, growth factors, fibroblast growth factor, cat 719

**Corneal epithelium**
growth factors, transforming growth factor $\beta$, epidermal growth factor, epithelial cells, integrin, migration 691
phorbol ester, phosphoinositides, ionomycin, phosphatidylcholine, phospholipase C 135
phorbol ester, protein kinase C, phospholipase D, ionomycin, phosphatidic acid, phosphatidylethanol, bovine 553
protein kinase C, epithelial wound healing, PKC subspecies, $\alpha$PKC, rabbit 899
rabbit, morphometry 1129
specular microscopy, morphology, human 517
wound healing, hyaluronic acid, molecular weight, rabbit 981
wound healing, tight junctions, freeze-fracture, rabbit 15

**Corneal transplantation**
polymerase chain reaction, tissue typing, cadaveric donor, graft rejection, human 445

**Corticosteroids**
intraocular pressure, soft corticosteroids, inactive metabolite approach, drug metabolism, side effects 525

**Cyclic AMP**
aqueous humor, circadian rhythm, IBMX, rabbit 935

**Cyclic nucleotides**
intraocular pressure, inflammation, blood-aqueous barrier, 8-bromo-cAMP, 8-bromo-cGMP, prostaglandins, rabbit 5
ion channels, ciliary epithelium, cAMP, K+-channels, isoprenaline, adrenergic stimulation, rabbit/bovine 1019

**Cyclosporin**
cornea, drug delivery, vehicle, protein, corneal penetration, permeability, rabbit 641
uveitis, nephrotoxicity, renal function, lithium clearance, human s215

**Cytochrome oxidase**
retina, blue light exposure, quantitative histochemistry, dry mass density, rat 825

**Cytokines**
experimental autoimmune uveitis, retinal S-antigen, tumor necrosis factor, anti-idiotypic antibodies s197
immunosuppression, microenvironment, cell-mediated immunity, ACAID, review s41
retina, receptors, soluble interleukin-2 receptors, retinal vasculitis, sarcoidosis, Fuchs' heterochromic cyclitis, human s193
T-lymphocytes, uveitis, CD45RO antigen, posterior uveitis, interleukin-2 receptor, 3-colour immunofluorescent staining, human s167
tumour necrosis factor, retinal pigment epithelium, interleukin-6 (IL-6), interleukin-1 (IL-1), human s173
uveitis, inflammation, human s187
uveitis, inflammation, intraocular expression, uveitogenic properties 581
uveitis, interleukin-6, vitreous fluid, human s181

**Cytomegalovirus**
uveitis, HLA-B27, viral receptors, beta-2 microglobulin s141

**Cytoskeleton**
lens, actin-alpha interactions, cytoskeletal proteins 929
lens, calcium, calpain, beaded filament protein, proteolysis 103
lens, intermediate filaments, proteolysis 909

**Diabetes**
bloodflow, retina, retinal circulation, video fluorescein angiography, rat animal model 287
myo-inositol, lens, membrane transport permeability, galactose, cataract, polyol, rats 25

**DNA-binding protein**
lens, MHC, dbpB, YB-1, cDNA cloning, mouse 175

**Docosahexaenoic acid**
retinal pigment epithelium, phagocytosis, photoreceptors, shedding, autoradiography, phospholipids, retina 73

**Drug delivery**
cornea, corneal penetration, drug combination, flurbiprofen, phenylephrine, ion pairing 85
cyclosporine, cornea, vehicle, protein, corneal penetration, permeability, rabbit 641

**Eicosanoids**
immune response, retinal S-antigen, uveitis, flurbiprofen, immunomodulation, rat 571

**Electroretinogram**
rods, retina, sensitivity, a-wave, infants 1193

**Endothelin**
aqueous humour, ciliary body, cell culture, human nonpigmented ciliary epithelium, human ciliary muscle, bovine corneal endothelium 1041
pupil, blood flow, endothelin-1, retinal blood flow, prostaglandins, cat 325

**Experimental autoimmune uveitis**
autoimmune disease, adjuvant, immunization, uveoretinitis, rat 371
autoimmune disease, antigen presentation, protease inhibitors, immunodominance, retinal pigment epithelium, prostaglandins, review s49
blood-retinal barrier, endothelium, retinal pigment epithelium, blood-retinal barrier s25
extracellular matrix, ciliary body, retinal S-antigen, immunocytochemistry, rat 1087
FK506, Behcet's disease, uveitis, clinical study, human, rat s87
genetic factors, susceptibility, mouse, rat s81
immunotherapy, review s33
inflammation, hydrogen peroxide, histochemical, polymorphonuclear leukocyte 955
interphotoreceptor binding protein, confocal microscope, dual immunofluorescence, macrophage, rat s129
interphotoreceptor retinoid binding protein, immune suppression, ACAID s97
macrophage depletion, review, rat s75
oxidative damage, lipids, retinal lipid peroxidation, myeloperoxidase, conjugated dienes, fluorescent chromolipids rat
prazosin, $\alpha$1-adrenergic receptor antagonist, rat s135
retinal S-antigen, inter photoreceptor binding protein, anti idiotypic antibody, peptides, IRBP, review s59

retinal S-antigen, recombinant human S-antigen, rat s113
retinal S-antigen, tumor necrosis factor, cytokines, anti-idiotypic antibodies s197
retinal S-antigen, tumor necrosis factor, epitope, antibodies, suppression, rat s119
retinitis, retinal S-antigen, adoptive transfer, mercuric chloride, protection, rat s101
rhodopsin, peptide, T cell epitope, Lewis rats 657

**Experimental autoimmune uveoretinitis**
retinal S-antigen, T cell receptors (TCR), tolerance, autoimmunity, review, rats s67

**Extracellular matrix**
ciliary body, retinal S-antigen, experimental autoimmune uveitis, immunocytochemistry, rat 1087
proteinase, interphotoreceptor matrix, retina, metalloproteinase, inhibitor 91

**Fibronectin**
ciliary muscle, collagen, cell culture, type IV collagen, type VI collagen, human 333

**FK506**
experimental autoimmune uveitis, Behcet's disease, uveitis, clinical study, human, rat s87

**Gamma-glutamyl transpeptidase**
retina, brain, microvessel, alkaline, phosphatase 203

**Gap junctions**
ciliary epithelium, pigmented ciliary epithelium, non pigmented ciliary epithelium, ODM-2, human NPE cell line 113

**Glaucoma**
outflow facility, trabecular meshwork, thiol, ethacrynic acid, sulfhydryl, bovine 253
retina, intraocular pressure, timolol, betaxolol, retinal sensitivity 1
trabecular meshwork, phagocytosis, cat, hyphema, argon laser trabeculoplasty, cell division, tritiated thymidine 297

**Glutathione**
aging, lens, glutathione synthetase, γ-glutamylcysteine synthetase, primate: baboon, pigtail monkey, orangutan, prosimian: lemur, galago 601

**Glycoproteins**
keratitis, herpes simplex virus, glycoprotein D, virus neutralization, complement-dependent cytolysis (CDC), antibody- dependent cellular cytotoxicity (ADCC), mouse 53

**Growth and development**
retinal pigment epithelium, myeloid bodies, chick 147

**Growth factors**
aqueous humor, neuropeptides, α-MSH, cytokines 1199
corneal endothelium, wound healing, basic fibroblast growth factor, rabbit 1161
corneal endothelium, wound healing, fibroblast growth factor, cat 719
corneal epithelium, transforming growth factor β, epidermal growth factor, epithelial cells, integrin, migration 691
insulin, lens, receptors, insulin-like growth factor-I, tyrosine kinase activity, receptor heterogeneity chicken 1137
proliferative vitreoretinopathy (PVR), fibroblast/platelet-derived growth factor, transforming growth factor beta, epiretinal membrane, monocytes, rabbit 1031
retina, retinal dystrophy, immunohistochemistry, horizontal cell, bFGF, rat 1005

**Heat shock proteins**
lens proteins, alpha crystallins, age, bovine 817

**Heme oxygenase**
retina, oxidative damage, PCR 153

**Herpes simplex virus**
glycoproteins, keratitis, glycoprotein D, virus neutralization, complement-dependent cytolysis (CDC), antibody- dependent cellular cytotoxicity (ADCC), mouse 53
retina, immune response, retinal necrosis, monoclonal antibody, passive immunization, HSV-1 BALB/c, mouse 45

**Histamine**
trabecular meshwork cells, phosphoinositide hydrolysis, calcium mobilization, human 987

**HLA**
ACAID, antigens, HLA class II antigens, macrophage- associated membrane molecules (CD14, CD68) leucocyte-common- antigen (CD45) immunocytochemistry, human outflow tissue 1173
uveitis, cytomegalovirus, viral receptors, beta-2 microglobulin s141

**Hyaluronic acid**
vitreous, water content, differential scanning calorimetry 411
wound healing, corneal epithelium, molecular weight, rabbit 981

**Immune privilege**
retina, immunity, syngeneic retinal graft, ACAID, mouse 697

**Immune response**
retina, herpes simplex virus, retinal necrosis, monoclonal antibody, passive immunization, HSV-1 BALB/c, mouse 45
retinal S-antigen, uveitis, eicosanoids, flurbiprofen, immunomodulation, rat 571

**Immune suppression**
interphotoreceptor retinoid binding protein, experimental autoimmune uveitis, ACAID s97

**Immunoglobulins**
tear fluid, contact lenses, secretory, IgA, HPLC 123

**Infection**
Pseudomonas, cornea, bacterial adherence, flagella, immunization 727

**Inflammation**
chlorpromazine, uveitis, endotoxin-induced uveitis, lipopolysaccharide, tumor necrosis factor, rat 843
cyclic nucleotides, intraocular pressure, blood-aqueous barrier, 8-bromo-cAMP, 8-bromo-cGMP, prostaglandins rabbit
cytokines, uveitis, human s187
cytokines, uveitis, intraocular expression, uveitogenic properties 581
experimental autoimmune uveitis, hydrogen peroxide, histochemical, polymorphonuclear leukocyte 955
platelet activating factor, intraocular pressure, blood aqueous barrier, corneal edema, pupillary constriction, rabbit 1067
tear fluid, plasmin, contact lenses, hypoxia, extended wear, human 243

**Insulin**
lens, growth factors, receptors, insulin-like growth factor-I, tyrosine kinase activity, receptor heterogeneity chicken 1137

**Interphotoreceptor binding protein**
experimental autoimmune uveitis, confocal microscope, dual immunofluorescence, macrophage, rat s129
experimental autoimmune uveitis, immune suppression, ACAID s97
retinal S-antigen, experimental autoimmune uveitis, anti idiotypic antibody, peptides, IRBP, review s59
retinoblastoma, retina, mRNA, differentiation, human 425

**Interphotoreceptor matrix**
proteinase, extracellular matrix, retina, metalloproteinase, inhibitor 91

**Intraocular pressure**
adenosine receptors, (R)-phenylisopropyladenosine (R- PIA), adenosine, rabbit 453
ciliary processes, blood flow, epinephrine, microendoscopy, microvessels, rabbit 161
corticosteroids, soft corticosteroids, inactive metabolite approach, drug metabolism, side effects 525
cyclic nucleotides, inflammation, blood-aqueous barrier, 8-bromo-cAMP, 8-bromo-cGMP, prostaglandins, rabbit 5
glaucoma retina, timolol, betaxolol, retinal sensitivity 1
platelet activating factor, inflammation, blood aqueous barrier, corneal edema, pupillary constriction, rabbit 1067

**Ion channels**
ciliary epithelium, bicarbonate, sodium-potassium ATPase, membrane transport and permeability, intracellular potential, anion channels, rabbit 609
cyclic nucleotides, ciliary epithelium, cAMP, K+- channels, isoprenaline, adrenergic stimulation, rabbit/bovine 1019
keratocytes, cornea, K+ channel, Na+ channel, patch clamp 127

**Irritation**
calcitonin gene-related peptide, response, laser, methysergide, neodymium YAG laser, lens capsulotomy, rabbit 307

**Keratin**
cornea, K12 keratin, alkali injury, epithelial stem cells, rabbit 875
**Keratitis**
*Acanthamoeba*, pathogenic, nonpathogenic, hamster 1207
antibiotics, methicillin-resistant Staphylococcus aureus, ciprofloxacin, vancomycin, cornea, rabbits 1111
antifungal agents, cornea, Aspergillus fumigatus, fluconazole, itraconazole, animal model 35
cornea, pseudomonas aeruginosa, ciprofloxacin, prednisolone, rabbits 259
glycoproteins, herpes simplex virus, glycoprotein D, virus neutralization, complement-dependent cytolysis (CDC), antibody-dependent cellular cytotoxicity (ADCC), mouse 53
**Keratoconus**
lectins, cornea, lectin binding sites, scar tissue, human 397
metalloproteinase, collagenase, cornea, extracellular matrix, human 849
**Keratocytes**
cornea, ion channels, K+ channel, Na+ channel, patch clamp 127

**Lacrimal gland**
retinol, vitamin A, retinyl ester hydrolase, liver, rabbit 889
tears, protein G, tear specific prealbumin, minigel electrophoresis, denaturation, human 1057
**Laminin**
basement membrane, retina, receptor, mouse 923
**Laser**
calcitonin gene-related peptide, response, irritation, methysergide, neodymium YAG laser, lens capsulotomy, rabbit 307
**Lectins**
keratoconus, cornea, lectin binding sites, scar tissue, human 397
**Lens**
aging, glutathione, glutathione synthetase, γ- glutamylcysteine synthetase, primate: baboon, pigtail monkey, orangutan, prosimian: lemur, galago 601
calcium, calpain, cytoskeleton, beaded filament protein, proteolysis 103
carbonic anhydrase, bovine 475
cataract, classification, retroillumination, photographic slit lamp, reproducibility, Kappa statistic 971
cataract, lens crystallins, alpha crystallins, lens membrane, protein association 801
cataract, membrane transport and permeability, calcium, Na/Ca-exchange, Na,K-ATPase, selenium, rat 625
cytoskeleton, actin-alpha interactions, cytoskeletal proteins 929
cytoskeleton, intermediate filaments, proteolysis 909
DNA-binding protein, MHC, dbpB, YB-1, cDNA cloning, mouse 175
insulin, growth factors, receptors, insulin-like growth factor-I, tyrosine kinase activity, receptor heterogeneity, chicken 1137
lens proteins, membrane protein MP19, chromosome 19- specific library, gene mapping, genomic DNA, cDNA 421
membrane transport and permeability, sodium, short- circuit current, rat 189
mitochondria, nuclei, rhodamine 123, confocal microscopy 1227
myo-inositol, membrane transport permeability, diabetes, galactose, cataract, polyol, rats 25
proteases, dipeptidyl peptidase II, lysosomal, histochemistry, rat 531
purine nucleosides, purine salvage, metabolism, bovine, rat 435
selenium, cataract, selenite cataract, scanning electron microscopy, rat 1147
sodium-potassium ATP-ase, lipids, phospholipase, lipid degeneration, membrane, human 459
ultraviolet irradiation, calcium, oxidative damage, epithelium, enzymes, UV(B) 679
**Lens capsule**
pseudoexfoliation syndrome, immunohistochemistry, basement membrane components, immunogold 343
**Lens membrane proteins**
glycation, diabetes, membrane permeability 833
**Lens proteins**
crystallin, 2-dimensional gel electrophoresis, human 669
crystallins, cataract, lens, alpha crystallins, lens membrane, protein association 801
dityrosine, protein crosslink, photolysis, crystallins, cataract, bovine 1121
heat shock proteins, alpha crystallins, age, bovine 817
lens, membrane protein MP19, chromosome 19-specific library, gene mapping, genomic DNA, cDNA 421
membrane proteins, plasma membrane, crystallins, isoelectric focusing, bovine 739
oxidative damage, bovine 651
**Lipids**
experimental autoimmune uveitis, oxidative damage, retinal lipid peroxidation, myeloperoxidase, conjugated dienes, fluorescent chromolipids, rat 489
retinal pigment epithelium, retina, plasma, polyunsaturated fatty acid 793
rod outer segments, retinal pigment epithelium, polyunsaturated fatty acids, plasma 783
sodium-potassium ATP-ase, lens, phospholipase, lipid degeneration, membrane, human 459
**Lysosomal enzymes**
retinal pigment epithelium, calcium, zymosan, phagocytosis, calcium fluxes, frog 195

**Membrane protein**
lens proteins, plasma membrane, crystallins, isoelectric focusing, bovine 739
retinal pigment epithelium, growth factors, platelet- derived growth factor, tyrosine phosphorylation 997
**Membrane transport and permeability**
ciliary epithelium, bicarbonate, sodium-potassium ATPase, ion channels, intracellular potential, anion channels, rabbit 609
corneal endothelium, cell culture, filter inserts, barrier function 61
lens, cataract, calcium, Na/Ca-exchange, Na,K-ATPase, selenium rat
lens, sodium, short-circuit current, rat 189
myo-inositol, lens, diabetes, galactose, cataract, polyol rats
**Metalloproteinase**
collagenase, keratoconus, cornea, extracellular matrix, human 849
Pseudomonas aeruginosa, proteinases, gelatinase, pseudomonal elastase, pseudomonal alkaline protease, cornea 1105
**Methysergide**
calcitonin gene-related peptide, response, laser, irritation, neodymium YAG laser, lens capsulotomy, rabbit 307
**Myo-inositol**
lens, membrane transport permeability, diabetes, galactose, cataract, polyol, rats 25
**Myopia**
proteoglycans, sclera, chondrocytes, chicken 767

**N-acetyltransferase**
retina, arylamine, methotrexate, HPLC, bovine 1185
**Neuropeptides**
aqueous humor, growth factors, α-MSH, cytokines 1199

**Ocular cicatricial pemphigoid (OCP)**
autoimmune disease, cornea, DQB1*0301, DQw7, sequence analysis 1233
**Optic nerve**
oxidative damage, energetic metabolites, ischemia, free radicals, free radical scavengers 275
**Outflow facility**
glaucoma, trabecular meshwork, thiol, ethacrynic acid, sulfhydryl, bovine 253
**Oxidative damage**
experimental autoimmune uveitis, lipids, retinal lipid peroxidation, myeloperoxidase, conjugated dienes, fluorescent chromolipids, rat 489
heme oxygenase, retina, PCR 153
lens proteins, bovine 651
optic nerve, energetic metabolites, ischemia, free radicals, free radical scavengers 275
oxygen, retinopathy, retinal hemorrhage, retinal fold, rat 939
retinal pigment epithelium, stress proteins, heat shock proteins, immunoblotting, organic oxidants 385
retinopathy, retinal hemorrhage, retinal fold, rat 939
ultraviolet irradiation, lens, calcium, epithelium, enzymes, UV(B) 679

**Phagocytosis**
retinal pigment epithelium, docosahexaenoic acid, photoreceptors, shedding, autoradiography, phospholipids, retina 73
trabecular meshwork, glaucoma, cat, hyphema, argon laser trabeculoplasty, cell division, tritiated thymidine 297
**Phorbol ester**
phosphoinositides, corneal epithelium, ionomycin, phosphatidylcholine, phospholipase C 135
protein kinase C, corneal epithelium, phospholipase D, ionomycin, phosphatidic acid, phosphatidylethanol, bovine 553
**Phosducin**
experimental autoimmune uveitis, pinealitis, rat s107
**Phosphoinositides**
phorbol ester, corneal epithelium, ionomycin, phosphatidylcholine, phospholipase C 135
**Photoreceptors**
retinal pigment epithelium, docosahexaenoic acid, phagocytosis, shedding, autoradiography, phospholipids, retina 73
**Pineal gland**
uveitis, MHC class II antigen, immunoglobulin, lymphocytes, immunohistochemistry, equine s147
**Plasmin**
tear fluid, contact lenses, inflammation, hypoxia, extended wear, human 243
**Platelet activating factor**
inflammation, intraocular pressure, blood aqueous barrier, corneal edema, pupillary constriction, rabbit 1067
**Platelets**
proliferative vitreoretinopathy (PVR), vitreous, platelet-rich plasma, cryotherapy, vitrectomy, rabbit 1047
**Pneumolysin**
cornea, bacterial infection, pneumococcus, infection, virulence 1221
**Polymerase chain reaction**
corneal transplantation, tissue typing, cadaveric donor, graft rejection, human 445
**Proliferative vitreoretinopathy (PVR)**
growth factors, fibroblast/platelet-derived growth factor, transforming growth factor beta, epiretinal membrane, monocytes, rabbit 1031
platelets, vitreous, platelet-rich plasma, cryotherapy, vitrectomy, rabbit 1047
**Proteases**
lens, dipeptidyl peptidase II, lysosomal, histochemistry, rat 531
**Protein kinase C**
corneal epithelium, epithelial wound healing, PKC subspecies, αPKC, rabbit 899
phorbol ester, corneal epithelium, phospholipase D, ionomycin, phosphatidic acid, phosphatidylethanol, bovine 553
**Proteinase**
interphotoreceptor matrix, extracellular matrix, retina, metalloproteinase, inhibitor 91
**Proteinases**
matrix metalloproteinase, Pseudomonas aeruginosa, gelatinase, pseudomonal elastase, pseudomonal alkaline protease, cornea 1105
**Proteoglycans**
myopia, sclera, chondrocytes, chicken 767
**Pseudoexfoliation syndrome**
lens capsule, immunohistochemistry, basement membrane components, immunogold 343
**Pseudomonas aeruginosa**
cornea, infection, bacterial adherence, flagella, immunization 727
keratitis, cornea, ciprofloxacin, prednisolone, rabbits 259
matrix metalloproteinase, proteinases, gelatinase, pseudomonal elastase, pseudomonal alkaline protease, cornea 1105
**Pupil**
endothelin, blood flow, endothelin-1, retinal blood flow, prostaglandins, cat 325
**Purine nucleosides**
lens, purine salvage, metabolism, bovine, rat 435

**RCS rats**
vasoactive intestinal polypeptide (VIP), retinal degeneration, choroid 501
**Receptors**
α2 adrenoceptor, prejunctional, postjunctional, rabbit, cat 963
ciliary body, calcitonian gene-related peptide (CGRP), binding, islet amyloid polypeptide, bovine, porcine, rabbit 1079
insulin, lens, growth factors, insulin-like growth factor-I, tyrosine kinase activity, receptor heterogeneity, chicken 1137
retina, cytokines, soluble interleukin-2 receptors, retinal vasculitis, sarcoidosis, Fuchs' heterochromic cyclitis, human s193
**Retina**
adhesion molecules, choroid, immunoperoxidase, human s153
ascorbic acid, retinal pigment epithelium, light changes, rat 231
cytochrome oxidase, blue light exposure, quantitative histochemistry, dry mass density, rat 825
diabetes, bloodflow, retinal circulation, video fluorescein angiography, rat animal model 287
gamma-glutamyl transpeptidase, brain, microvessel, alkaline, phosphatase 203
heme oxygenase, oxidative damage, PCR 153
herpes simplex virus, immune response, retinal necrosis, monoclonal antibody, passive immunization, HSV-1 BALB/c, mouse 45
immune privilege, immunity, syngeneic retinal graft, ACAID, mouse 697
laminin, basement membrane, receptor, mouse 923
N-acetyltransferase, arylamine, methotrexate, HPLC, bovine 1185
proteinase, interphotoreceptor matrix, extracellular matrix, metalloproteinase, inhibitor 91
receptors, cytokines, soluble interleukin-2 receptors, retinal vasculitis, sarcoidosis, Fuchs' heterochromic cyclitis, human s193
retina S-antigen, S-antigen mRNA, immunohistochemistry, in situ hybridization, neural crest, rat, human 219
retinal blood flow, blood flow, retinal vessel diameter, radioactively labelled microspheres, laser Doppler technique, pig 633
retinal dystrophy, growth factors, immunohistochemistry, horizontal cell, bFGF, rat 1005
retinal pigment epithelium, lipids, plasma, polyunsaturated fatty acid 793
retinoblastoma, interphotoreceptor binding protein, mRNA, differentiation, human 425
rods, electroretinogram, sensitivity, a-wave, infants 1193
uveitis, vascular endothelium, autoantibodies, retinal vasculitis s203
vasoactive intestinal peptide (VIP), messenger RNA (mRNA), amacrine cell, rat 711
**Retinal blood flow**
blood flow, retina, retinal vessel diameter, radioactively labelled microspheres, laser Doppler technique, pig 633
**Retinal degeneration**
vasoactive intestinal polypeptide (VIP), RCS rats, choroid 501
**Retinal dystrophy**
retina, growth factors, immunohistochemistry, horizontal cell, bFGF, rat 1005
**Retinal pigment epithelium**
ascorbic acid, retina, light changes, rat 231
docosahexaenoic acid, phagocytosis, photoreceptors, shedding, autoradiography, phospholipids, retina 73
endothelial cells, neovascularization, blood vessels, rat 863
growth and development, myeloid bodies, chick 147
lysosomal enzymes, calcium, zymosan, phagocytosis, calcium fluxes, frog 195
membrane protein, growth factors, platelet-derived growth factor, tyrosine phosphorylation 997
oxidative damage, stress proteins, heat shock proteins, immunoblotting, organic oxidants 385
retina, lipids, plasma, polyunsaturated fatty acid 793
retinoids, cell proliferation, antiproliferative agents, retinoic acid, cell density, in vitro aging 753
rod outer segments, lipids, polyunsaturated fatty acids, plasma 783
taurine, proliferation 481
tumour necrosis factor, cytokines, interleukin-6 (IL-6), interleukin-1 (IL-1), human s173
zinc, metallothionein, human, in vitro 183
zinc, ocular, primates, human 213
**Retinal S-antigen**

experimental autoimmune uveitis, inter photoreceptor binding protein, anti idiotypic antibody, peptides, IRBP, review s59
experimental autoimmune uveitis, recombinant human S- antigen, rat s113
experimental autoimmune uveitis, retinitis, adoptive transfer, mercuric chloride, protection, rat s101
experimental autoimmune uveitis, tumor necrosis factor, cytokines, anti-idiotypic antibodies s197
experimental autoimmune uveoretinitis, T cell receptors (TCR), tolerance, autoimmunity, review, rats s67
extracellular matrix, ciliary body, experimental autoimmune uveitis, immunocytochemistry, rat 1087
immune response, uveitis, eicosanoids, flurbiprofen, immunomodulation, rat 571
retina, S-antigen mRNA, immunohistochemistry, in situ hybridization, neural crest, rat, human 219
tumor necrosis factor, experimental autoimmune uveitis, epitope, antibodies, suppression, rat s119

**Retinitis**
experimental autoimmune uveitis, retinal S-antigen, adoptive transfer, mercuric chloride, protection, rat s101

**Retinoblastoma**
retina, interphotoreceptor binding protein, mRNA, differentiation, human 425

**Retinol**
vitamin A, lacrimal gland, retinyl ester hydrolase, liver, rabbit 889

**Retinopathy**
oxygen, oxidative damage, retinal hemorrhage, retinal fold, rat 939

**Rhodopsin**
experimental autoimmune uveitis, peptide, T cell epitope, Lewis rats 657
reductively methylated rhodopsin, radioimmunoassay, immunoreactivity, reductive methylation, opsin, bovine 267

**Rod outer segments**
retinal pigment epithelium, lipids, polyunsaturated fatty acids, plasma 783

**Rods**
electroretinogram, retina, sensitivity, a-wave, infants 1193

**Sclera**
myopia, proteoglycans, chondrocytes, chicken 767

**Selenium**
cataract, review, selenite cataract, cultured lenses, experimental animals, human 357
lens, cataract, selenite cataract, scanning electron microscopy, rat 1147

**Sodium**
membrane transport and permeability, lens, short-circuit current, rat 189

**Sodium-potassium ATP-ase**
ciliary epithelium, bicarbonate, ion channels, membrane transport and permeability, intracellular potential, anion channels, rabbit 609
lens, lipids, phospholipase, lipid degeneration, membrane, human 459

**Specular microscopy**
corneal epithelium, morphology, human 517

**T-lymphocytes**
uveitis, cytokines, CD45RO antigen, posterior uveitis, interleukin-2 receptor, 3-colour immunofluorescent staining, human s167

**Taurine**
retinal pigment epithelium, proliferation 481

**Tears**
contact lenses, immunoglobulins, secretory, IgA, HPLC 123
plasmin, contact lenses, inflammation, hypoxia, extended wear, human 243
lacrimal systems, protein G, tear specific prealbumin, minigel electrophoresis, denaturation, human 1057

**Timolol**
toxicity, cardiac effects, eyedrops, phenylephrine, viscosity, rabbit 469

**Toxicity**
timolol, cardiac effects, eyedrops, phenylephrine, viscosity, rabbit 469

**Trabecular meshwork**
outflow facility, glaucoma, thiol, ethacrynic acid, sulfhydryl, bovine 253
phagocytosis, glaucoma, cat, hyphema, argon laser trabeculoplasty, cell division, tritiated thymidine 297

**Trabecular meshwork cells**
histamine, phosphoinositide hydrolysis, calcium mobilization, human 987

**Trachoma**
chlamydia, Chlamydia trachomatis, inapparant chlamydial infection, molecular hybridization, rRNA probe, cynomolgus monkey 279

**Tumor necrosis factor**
cytokines, retinal pigment epithelium, interleukin-6 (IL- 6), interleukin-1 (IL-1), human s173
experimental autoimmune uveitis, retinal S-antigen, cytokines, anti-idiotypic antibodies s197
retinal S-antigen, experimental autoimmune uveitis, epitope, antibodies, suppression, rat s119

**Ultraviolet irradiation**
lens, calcium, oxidative damage, epithelium, enzymes, UV(B) 679

**Uveitis**
adhesion molecule, ICAM-1, HLA-B 27, sarcoidosis s161
anti-cardiolipin antibody, retinal vasculitis, acute retinal necrosis, human s209
chlorpromazine, inflamation, endotoxin-induced uveitis, lipopolysaccharide, tumor necrosis factor, rat 843
cyclosporin A, nephrotoxicity, renal function, lithium clearance, human s215
cytokines, inflammation, human s187
cytokines, inflammation, intraocular expression, uveitogenic properties 581
cytokines, interleukin-6, vitreous fluid, human s181
cytomegalovirus, HLA-B27, viral receptors, beta-2 microglobulin s141
epidemiology, genetics, review s1
FK506, experimental autoimmune uveitis, Behcet's disease, clinical study, human, rat s87
immune response, retinal S-antigen, eicosanoids, flurbiprofen, immunomodulation, rat 571
pineal gland, MHC class II antigen, immunoglobulin, lymphocytes, immunohistochemistry, equine s147
retina, vascular endothelium, autoantibodies, retinal vasculitis s203
T-lymphocytes, cytokines, CD45RO antigen, posterior uveitis, interleukin-2 receptor, 3-colour immunofluorescent staining, human s167

**Vascular endothelium**
uveitis, retina, autoantibodies, retinal vasculitis s203

**Vasoactive intestinal peptide (VIP)**
RCS rats, retinal degeneration, choroid 501
retina, messenger RNA (mRNA), amacrine cell, rat 711

**Vitamin A**
retinol, lacrimal gland, retinyl ester hydrolase, liver, rabbit 889

**Vitreous**
hyaluronic acid, water content, differential scanning calorimetry 411
proliferative vitreoretinopathy (PVR), platelets, platelet-rich plasma, cryotherapy, vitrectomy, rabbit 1047

**Wound healing**
corneal endothelium, growth factors, fibroblast growth factor, cat 719
corneal epithelium, hyaluronic acid, molecular weight, rabbit 981
corneal epithelium, protein kinase C, PKC subspecies, αPKC, rabbit 899
corneal epithelium, tight junctions, freeze-fracture, rabbit 15
growth factors, corneal endothelium, basic fibroblast growth factor, rabbit 1161

**Zinc**
retinal pigment epithelium, metallothionein, human, in vitro 183
retinal pigment epithelium, ocular, primates, human 213
